OBJECTIVE

IT Engineering student seeking opportunities to apply versatile skills in Full stack development utilizing both front-end and back-end technologies to contribute to innovative projects. Eager to leverage knowledge gained from academic projects and internships to create innovative solutions and drive business growth.

SKILLS

Programming Language — SQL | Java

Frontend — HTML | CSS | Reactjs | Tailwind

Backend — Nodejs | Express.js

Databases — PostgreSQL | MongoDB

PROJECTS

Book Tracking and Management Application

Dec 2024 – Jan 2025

- Developed a web application for managing and tracking book collections. It integrates the Google Books API to enable book searches and fetch detailed information such as authors and descriptions.
- The app includes user authentication, responsive design, and seamless book organization, showcasing expertise in API integration and user-friendly development.

Customizable Food Ordering Application

Jan 2025 – Mar 2025

- Developed a full-stack customizable food ordering web application using the MERN stack. Implemented JWT authentication, RESTful APIs, and a responsive React frontend for seamless user experience.
- Enabled dynamic menu browsing, order customization, cart management, and secure checkout, showcasing strong skills in full-stack development and API integration.

PROFESSIONAL EXPERIENCE

Fullstack Intern, ICEICO Technologies, Nagpur

Jan 2025 – Apr 2025

- Worked on backend development of a salon management app using Node.js and Express.js.
- Designed and implemented RESTful APIs for user authentication, role-based access control, appointment scheduling, and service management.
